

ARMATE®

Faucets

Faucets

Aesthetics

They are a striking addition to contemporary sink design: the ARMATE® faucets live up to all aesthetic demands in terms of material, shape and colour. Gone are the days when taps just had a job to do! Today, with their attractive design and smooth operation, they are among the most sought-after design elements in kitchen architecture.

The energy-efficient Cold-Start technology and pull-out outlets are just as much part of the ingenious technical attributes as precisely functioning high-quality cartridges and ceramic sealing washers.

The wide range of models offers selected faucets for every setting. Gleaming chrome, shimmering matt stainless steel or the spectacular trend colour black, as a convenient single-lever mixer or classic with two handles: ARMATE® faucets are always a long-standing, stylistically confident companion in every well-appointed kitchen.

ARMATE® SERVIZIO

Faucets with exquisite design and the utmost precision. From Naber!

All ARMATE® SERVIZIO models bear the Naber logo. It stands for exquisite design and the utmost precision in function. With their harmonious, contemporary forms, these faucets are an eye-catching feature in any setting.

A high-quality ceramic cartridge is included as standard. All faucets are equipped with at least 700 mm long connection hoses for particularly easy installation.

The striking design of the **Vireo 6** is inspired by professional kitchens and offers impressive freedom of movement. Thanks to the flexible soft-touch hose, you can easily reach every corner of the sink with the water jet with one hand. The maximum swivel range of 360 degrees adds an extra dimension of convenience. **Vireo 6** is available in the versions stainless-steel coloured and matt black.

Namor® faucets are also characterised by the superb quality of their **bodies made entirely from stainless steel**. The three different contemporary shapes are each available in brushed stainless steel or matt black with a high-quality powder coating. The models **Namor® 2, 4 and 6** have a pull-out shower head which can be set to jet/shower. For installation in front of windows, **Namor® 1, 3, 4 and 5** are also available as window faucets.

All ARMATE® SERVIZIO faucets naturally comply with the German Drinking Water Ordinance and the corresponding German and European standards.

Vireo 6. Stainless-steel coloured. 2-stream hand shower, laminar aerator, ceramic cartridge, curved outlet with soft-touch hose.

Namor 2. Brushed stainless steel. With pull-out shower head.

Namor 3. Black matt. High-quality powder coating.

Shower hose with "click" fastening for tool-free installation.

Smooth-running ball-and-socket joint on the pull-out shower.

Precise switching between laminar jet and spray in the aerator.

Energy-saving cold-start technology: no hot water in the starting position!

Smooth-running high-quality cartridge with ceramic discs.

5 years manufacturer's warranty (except wearing parts). Factory customer service in DE, AT and NL.

Namor®

The high-quality stainless steel Namor series of faucets stands for three contemporary design concepts and guarantees maximum user benefits in all shapes and forms. Whether stylishly linear, self-confidently L-shaped or elegantly C-shaped – Namor kitchen faucets convince with their aesthetic perfection and technical precision. In every design, the Namor faucets impress with their slender lever and their stainless steel and matt black colours. Each design includes two versions: the faucet with swivelling outlet and the faucet with swivelling and pull-out hose with shower head.

Stainless steel

5 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany, Austria and the Netherlands

Detergent dispenser Namor[®]

Space-saving elegance for extra convenience: the shapely detergent dispenser of the Namor[®] kitchen faucet series is available in the same colour variants as the faucets. Thanks to high-quality technology, the detergent container, which is hidden away under the worktop, can be conveniently filled from above. The superb pump mechanism guarantees precise dosing.

5 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany, Austria and the Netherlands

Detergent dispenser Namor[®]

Dish soap dispenser with brass pump head. Capacity 331 ml. High-quality, corrosion-resistant metal construction for tool-free installation in worktops. Easy cleaning and uncomplicated filling from the top without removing the dispenser.

– bore diameter 25–40 mm

5025022	stainless steel finish	€ 106.25
5025023	black matt	€ 114.75
5025024	gunmetal	€ 121.13

Vireo

Calm reliability is the motto of the Vireo 6, which makes workflows at the heart of the kitchen considerably easier. Its distinctive design is modelled on professional kitchens and provides impressive freedom of action. Thanks to the flexible soft-touch hose, the water jet can easily reach every corner of the sink with single-handed operation. Other convenient features include simple switching between flow modes and the maximum possible swivel range of 360 degrees.

5 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany, Austria and the Netherlands

Vireo 6

Single lever faucet. With side lever, 2-stream hand shower, laminar jet regulator, and ceramic cartridge. Arched outlet with soft-touch hose and outlet with conical holder.

- swivel range 360°
- drill Ø 35 mm

5011100	stainless steel coloured, high pressure	€ 320.00
5011101	black matt, high pressure	€ 320.00

Dirt filter Ecco 1

For corner valves DN 10. With filter insert and removable screw. Protects the cartridge against ingress of dirt. For high-pressure faucets two filters are required, for low-pressure faucets, only one filter.

5031005	3/8", chrome	€ 30.28

LINEA

Our own brand concept ARMATE® LINEA combines high design and convenience with smart functionality in all model classes.

All single lever faucets are equipped with a ceramic cartridge. Quality at optimum value for money offers more scope for the specialist trade.

We give you **5 years warranty** (except for wearing parts), as well as **10 years of warranted supply period** for all spare parts. For conditions, see naber.com/en/guarantee/.

Your claim to customer service during the warranty period is regulated individually by agreement.

All faucets comply with the drinking water ordinance as well as the associated German and European standards.

Arco

The Arco faucet series convinces through harmony, elegance and functionality. Its slim and elegant style makes it seem filigree and not too dominant. Which makes the series ideal for kitchen sinks.

5 years manufacturer's warranty (except on wearing parts)

Your entitlement to customer service within the warranty period is arranged individually in consultation with us.

Mio

Focused on the essentials, the design challenges of ergonomics, individuality and ease of use have been implemented in two shape variants that can be timelessly integrated into any sink centre. Three colour variants accentuate the exclusive finish of the model series. The models with a pull-out shower head offer an extended radius of action.

5 years manufacturer's warranty (except for wearing parts)

Your entitlement to customer service within the warranty period is arranged individually in consultation with us.

Lunarix

The high, geometrically shaped outlet and the striking matt brushed finish give Lunarix a distinctive, elegant look. Thanks to the pull-out shower head with two flow modes and a 360-degree swivel range, this impressive single-lever mixer offers a wide radius of action. The high-quality ceramic cartridge guarantees precise mixing of cold and hot water and underscores the long-lasting durability of the faucet.

5 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany, Austria and the Netherlands

Lunarix

Aqvella system

Refined drinking water or regular tap water flows from the shapely kitchen faucets, just as you wish. The high-quality single-lever mixer with laminar aerator is connected to a practical cooling and filter system. Using the twist grip on the left, you can select the type of table water the faucet should provide: classic sparkling, medium sparkling or still water, which is also chilled and filtered. For added convenience, the colour of the LED ring shows the type of table water currently selected. Only a standard CO₂ cartridge is added to the technical unit. The corresponding holder is already in place.

5 years manufacturer's warranty (except on wearing parts)

Your entitlement to customer service within the warranty period is arranged individually in consultation with us.

Aqvella system

Sparkling water single lever mixer faucet including cooling and filter system. With swivelling outlet, side lever, laminar jet regulator and ceramic cartridge.

- set consisting of faucet and technical unit (matt black) with cooling system, filter, filter head and **standard** CO₂ cartridge. (425 g)
- technical unit: 455 x 210 x 425 mm (H x W x D)
- separate turning handle on the left for sparkling (classic + medium), chilled and filtered (still) water, control lever on the right for tap water
- integrated LED ring shows the different water modes with different colours.
- water temperature flexibly adjustable between 4 and 12°C
- energy-saving technology unit with low power consumption
- swivel range 360°
- drill Ø 35 mm

WASSERWERK

ARMATE® Wasserwerk applies only the highest standards from the word go. Material and workmanship, functionality and design are subject to strict criteria. For each individual faucet, the density of the faucet body, the cartridge, the outlet and the shower are tested. The complete functionality is then tested again using various measuring instruments and procedures.

Pre-mounted hoses and quick-release screw connections allow for safe, easy and time-saving installation.

The excellent quality of the ARMATE® WASSERWERK faucets justifies a **10-year warranty** (except for wearing parts). Furthermore, we offer a **15-year availability guarantee** on many spare parts. For the terms and conditions, see naber.com/de/garantie/.

Factory customer service:
WASSERWERK
Tel. +49 5407 8152902
info@wasserwerk.de
wasserwerk.com.

All fittings naturally comply with the German Drinking Water Ordinance and the corresponding German and European standards.

Centrepiece: high-performance quality cartridge for particularly smooth and precise mixing of hot and cold water.

Solid brass faucet body, precisely crafted from the finest materials, extensively tested for durability using the latest techniques.

Shimmering surfaces, finished using state-of-the-art methods. For many years of stylish use in well-appointed kitchens.

Energy-saving cold-start technology: no hot water in the starting position!

Smooth-running, high-quality cartridge with ceramic discs and partial scald protection.

10-year manufacturer's warranty (except for wearing parts). Factory customer service in DE and AT.

Quality label, known and respected worldwide. Made in Germany is our WASSERWERK quality promise for our faucets.

Because we care for the environment! WASSERWERK promotes harmony with the environment, also by avoiding plastic as much as possible and using recycled paper.

Portare

All Portare faucets have high-quality anti-limescale aerators that prevent limescale deposits permanently. They also have the energy-efficient Cold-Start equipment for contemporary energy use. With standard single-lever mixers, the lever is always closed in the middle for visual reasons or as a matter of routine. If it is operated in this position, the cold water and hot water pipes open. To start with, however, the water remains cold because it takes a while for hot water to reach the outlet. Until then, hot water is still consumed, which previously had to be heated in an energy-intensive way. Not so with the Cold Start equipment from Portare: also in the middle position, only cold water flows. Hot water is only added when the lever is moved further to the "hot" position. In this way, unnecessary energy consumption is avoided.

10 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany and Austria

Portare 3

Aria

Aria combines the best possible ease of use with a strong and glamorous appearance. The flexible hose is elegantly mounted at the front, where it can easily be detached and moved in all directions. The swivelling range of 360 degrees enables further radius of operation. This new form of absolute versatility is matched by the stunning design. Robust and elegant all at once, Aria is a statement of professionalism in the kitchen. It is available as a striking eye-catcher in a single colour and as a glamorous centrepiece for the kitchen in a two-colour version. The energy-saving Cold-Start technology is integrated.

10 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany and Austria

Aria

Ventari

Inspired by the faucets used in catering, with its flexible spiral spring and easy switching between regular and spray modes, Ventari makes daily tasks at the sink easier. Ingredients, dishes and the sink can be quickly and effortlessly cleaned, just like in a professional kitchen. Ventari is visually appealing with its contemporary and balanced elegance, which charmingly incorporates the spiral spring. The perfect surface finish provides a long-lasting, well-kept appearance in a range of attractive colours.

Kristea

Kristea impressively demonstrates the great care and attention that has gone into creating a contemporary and yet timeless faucet design. The perfect synopsis of the round and the angular produces a high outlet, which exudes pure aesthetics in three trendy colours. Each colour stands for its own furnishing style: from contemporary with matt black to rustic with matt graphite and art deco with brushed gold. Technically, Kristea impresses with utmost precision and energy-efficient Cold-Start technology. The pull-out outlet and the largest possible swivelling range of 360 degrees provide for particular ease of use.

Bendea

The aesthetically perfect kitchen faucet is "made in Germany". It offers a radius of action that is hard to beat in a model with an arched outlet. Bendea is equipped with a pull-out outlet that enables easy switching between jet and shower – with a swivelling range of 360 degrees. This convenience is available in combination with energy-efficient cold-start technology and four surface colours. The stainless steel-coloured finish is always on trend, while black matt, graphite matt and brushed gold give this perfectly shaped faucet a particularly striking appearance.

10 years manufacturer's warranty (except on wearing parts)

Stringere

The high L-shaped outlet gives this durable faucet its clear, contemporary look and guarantees the best possible operating convenience. It is possible to conveniently fill numerous containers directly on the work surface. With its pull-out outlet and two jet modes, Stringere provides exceptional flexibility. In each surface finish, the high-precision faucet impresses with its luxurious look. It is available in a stainless steel-colour, as well as in the colour variants graphite matt, black matt and brushed gold.

10 years manufacturer's warranty (except on wearing parts)

Ceraflex

Ceraflex is the all-rounder among the kitchen fittings. It impresses with its timeless and yet contemporary design. Thanks to the Click and **BlueStart technology** which delivers cold water in the middle position, energy and water can be saved. Hot water can be added by turning the handle to the left. The cartridge also has an additional **temperature control**. This allows the maximum temperature to be set at the cartridge. The fittings are equipped with a durable 38 mm **CLICK cartridge**. The EASY-FIX attachment of the Ceraflex 1 and 3 models facilitates quick and uncomplicated assembly.

Window fitting: For a sink in front of the kitchen window, Ceraflex is the smart alternative. It can be pulled out and laid flat in one simple movement.

Fiora

The Wasserwerk washbasin faucets manufactured in Germany are characterised by their high-quality ceramic cartridges and particularly durable surface finish. The purist, elegant design and water-saving construction are in line with the times. Some of the mixer nozzles have an innovative anti-limescale function. Thanks to the colour options and the sleek, minimalist design language, there are perfectly matching faucets for classic-contemporary bathrooms and individual room concepts. Models with a high outlet are particularly suitable for washbasins with countertop bowls. Waterworks faucets are easy to maintain and simple to install thanks to their central screw connection.

10 years manufacturer's warranty (except on wearing parts)

Factory customer service in Germany and Austria

Fiora 1 bathroom

Single lever faucet. With pull-rod drain fitting 1/4" and ceramic cartridge.
 – drill-Ø 35 mm
 – additional water-saving aerator included in the scope of delivery (5 l/min.)

5021346	chrome, high pressure	€ 259.66
5021347	black matt, high pressure	€ 302.06

Fiora 2 bathroom

Single lever faucet. With pull-rod drain fitting 1/4" and ceramic cartridge. Particularly suitable for use with countertop washbasins.
 – drill-Ø 35 mm
 – additional water-saving aerator included in the scope of delivery (5 l/min.)

5021348	chrome, high pressure	€ 339.92
5021349	black matt, high pressure	€ 419.75

Tareo 1 bathroom

Single lever faucet. With pull-rod drain fitting 1/4" and ceramic cartridge. Incl. NEOPERL® aerator CASCADE® SLC with anti-limescale function.
 – drill-Ø 35 mm
 – additional water-saving aerator included in the scope of delivery (5 l/min.)

5021350	chrome, high pressure	€ 275.46
5021351	black matt, high pressure	€ 317.23

Daro 1 bathroom

Single lever faucet. With pull-rod drain fitting 1/4" and ceramic cartridge. Incl. NEOPERL® aerator CASCADE® SLC with anti-limescale function.
 – drill-Ø 35 mm
 – additional water-saving aerator included in the scope of delivery (5 l/min.)

5021352	chrome, high pressure	€ 294.54
5021353	black matt, high pressure	€ 336.55

Q5 5 litre storage water heater

The Q5 5 litre storage water heater is an innovation in the area of small under-sink storage water heaters. This storage water heater makes it possible to use any high-pressure faucet, even if only a cold water connection is available in the kitchen. Restrictions in the choice of faucet are a thing of the past. The new type of insulation of the appliance reduces the supply costs of the hot water compared to a 5-litre small under-sink storage heater. The Q5 storage water heater guarantees uniform water pressure for hot, cold and mixed water.

At a water pressure of more than 4 bar, a pressure reducer has to be installed on site in front of the safety group.

Maximum water pressure 5 bar.

Q5 5 liters storage water heater

Storage water heater. The small Q5 5 litre storage heater immediately draws attention with its compact design. Its height is only 145 mm. The special thing about the Q5 is that it can be installed **in or under** practically all kitchen cabinets in a variety of ways. The unit can be mounted horizontally or vertically. Your fitter installs the water heater invisibly behind the skirting board and positions it horizontally or vertically on the side or rear wall.

Advantages of the Q5 5-litre storage water heater over connection to a central hot-water supply system:

- no waiting time
- saves water
- saves energy
- saves money
- no low-pressure faucet necessary

The Q5 also has other advantages over a conventional small under-sink storage water heater:

- **as a pressure-resistant storage heater in high-grade stainless steel, normal high-pressure faucets can be connected**
- **NO annoying dripping from the faucet!**
- thermostat adjustable from the outside
- can be mounted invisibly behind the skirting board
- different installation options
- overall concept, including pressure-resistant safety group and connection set

Warranty

We grant 5 years manufacturer's warranty on the internal stainless steel tank of the storage heater. The other parts are covered by 2 years manufacturer's warranty. For conditions see www.naber.com/en/garantie/.

Technical data:

- connection and temperature controller on the side
- 5 litres filling capacity
- power 2200 watt
- setting range 30-80 °C
- heating up time to 65 °C 18 min
- standby loss 21 Watt
- 145 x 540 x 215 mm (H x W x D)

Installation height of the wall outlet (on-site) 400 mm from the top edge of the floor.

Under-sink device Small U5

For connection of low-pressure faucets.
Thanks to rapid heating, the water and electricity consumption can be kept low. Space-saving under-sink water heater makes good use of the space under the sink.

Under-sink device Small U5

Storage water heater.

- **installation depth only 155 mm**
- small water heater 5 litres, white. Open (pressure-free).
- container material in plastic
- compact insulation
- continuous temperature setting of 30–85 °C
- mixed water volume 40 °C 7.5 l
- the outlet of a faucet should always be free
- if possible, do not use a shower fitting
- with earthing contact plug and wall mounting strip
- safety temperature limiter can be reset by pulling the mains plug
- contact/moisture protection IP24
- power supply 230 V, 50 Hz, 10 A
- ready to plug in, connected load 2 kW
- weight with water 7.4 kg
- device dimensions 365 x 230 x 155 mm (H x W x D)
- **maximum water pressure 4 bar**
- **max. water flow 5 l / min.**

Under-sink device

For connection of low-pressure faucets.

Under-sink device TR 1500

Water heater.

- small water heater 5 litres, white. Open (pressure-free)
- container material in plastic
- high-quality compact insulation
- continuous temperature setting of 35–85 °C
- with frost protection setting "*" and energy-saving setting "e"
- temperature setting can be limited to stage "l" or stage "e"
- power indicator lamp
- mixed water volume 40 °C 9.5 l
- the outlet of a faucet should always be free
- if possible, do not use a shower fitting
- lowest standby power consumption (about 0,2 kWh at 65 °C/24 h)
- with fastening material, mounting bracket
- switchable safety temperature limiter
- contact/moisture protection IP24D
- power supply 220–240 V
- ready to plug in, connected load 2.2 kW
- weight with water 7.5 kg
- device dimensions (H x W x D) 390 x 258 x 245 mm

Optional accessories

6011045 Flow meter, red € 62.58

Undersink unit with drip and pressure stop

For connection of low-pressure faucets.
Not a drop from the faucet outlet during heating, no waste of water, clean and environmentally conscious. The pressure stop shows the calcification and recognizes the wrong water connection from 0.25 MPa (2.5 bar). In these cases, the pressure stop function blocks the cold water supply, and thus indicates the excess pressure. The pressure stop function works similar to a fuse. Once the fault is corrected and the excess pressure eliminated, it can be reset and the small tank is immediately available again for use.

Undersink unit TR 3500

Drip stop prevents dripping during heating, saves water and reduces lime scale. The pressure stop shows the calcification and recognises incorrect water connection from 0.25 MPa (2.5 bar).

- small water heater 5 litres, white. Open (pressure-free).
- with drip and pressure stop
- CLICKFIX assembly technology saves time and money
- container material in plastic with high-quality EPS expanded polystyrene insulation
- temperature continuously variable from approx. 35 °C to 85 °C with engaged positions at "s", "l" and "e" • frost protection setting
- power indicator lamp
- power-saving cover plate
- mixed water volume display on the power-saving cover plate
- the outlet of a faucet should always be free
- if possible, do not use a shower fitting
- high mixed water quantity 14 liters 40 °C hot water
- grounding contact easily accessible from the outside for the electrical safety testing according to BGV A3
- lowest standby power consumption of only 0.18 kWh/d
- secure metal water connections in brass, colour-coded
- switchable safety temperature limiter
- contact/moisture protection IP24D
- electricity supply 230 V, ready to plug in, connected load 2.2 kW
- weight with water 7.7 kg
- device dimensions (H x W x D) 435 x 270 x 240 mm
