Waste  
collectors

Intelligence

Waste collectors

Clean waste separation conserves natural resources. At the same time, keeping the base cabinet well organised saves time and is conveniently sustainable. In this way, SELECTAkit® waste separation systems make responsible ecological thinking simple!

Because the SELECTAkit® waste collector range, creatively developed over many years, provides the optimum waste separation system with precisely fitting storage space organisation for every kitchen base unit. They are highly practical, versatile and flexible: Cox® Base, Cox StandUP®, Cox Clan®, Cabbji® ... And with Cox Base-Board® and Cox Work® you have tailor-made organisation and storage systems on top.

That means: undreamt-of storage possibilities for accessories and utensils, combined with highly functional and ergonomic design.

## Pull-out technology with front pull-out

### COX® Base

is the sophisticated built-in waste collector solution, convincing due to high quality, convenient handling and perfect pull-out technology.

- GRASS self-retractable full pull-out technology with synchronization, Airmatic soft-impact proven in long-term tests
- smooth operation and lateral stability even under full load (load bearing capacity 40 kg)
- reinforced metal housing frame for container holder, powder-coated
- extractable metal lid with grip clip, may be used as an additional deposit, powder-coated
- available for four cupboard widths as well as with standard and XXL containers, installation depth of only 400 mm
- optional 10 l container with bio-lid and activated charcoal filter
- exactly fitting assembly using the "quick & easy" quick assembly frame

Cox® Base – competitive edge due to perfectly attenuated pull-out technology

### Cox® Base convinces due to easy assembly:

1. Insert GRASS-guide 470 mm into the side part and assemble flush with the body (quick & easy).

2. Slide depositing lid into the plastic sliding bearing.

3. Insert pull-out frame into the pull-out rails.

4. Install front attachment using the template.

5. Insert front plate into the pull-out frame and fasten it.

6. Insert container. Finished!

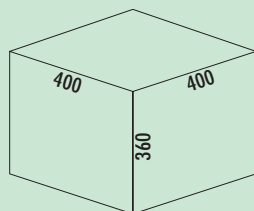

### Cox® Base 360 S

Waste collector as front pull-out system with soft retraction and damping.

- installation height 360 mm
- installation depth 400 mm
- **depth of the guide rail 470 mm**
- "quick&easy" installation frame for different body thicknesses (16/19 mm)
- "nova Pro" guide rail
- functional design

## Uittrektechniek met frontuittreksysteem

### Cox® Base Q+/ Cox® Base Q

Afvalverzamelersystemen van Naber combineren een optimale organisatie van de opbergruimte met maximaal comfort bij de hantering. Cox® Base Q+ / Cox® Base Q maakt het mogelijk dat afvalcontainers en Quooker waterreservoirs plaatsbesparend in de onderkast van de spoelunit ondergebracht worden.

Het comfortabele tappen van kokend heet en gekoeld sprankelend water gewoon door de Quooker kraan te bedienen, is gebaseerd op waterreservoir plus slangen en wateraansluitingen. Met Cox® Base Q+ / Cox® Base Q vindt de uitrusting een plekje in een stabiel frame naast de afvalverzamelaars.

Cox® Base Q+ / Cox® Base Q biedt minstens 20 liter afvalvolume. In één variant is de draagbare box voor benodigheden Cox Work® te integreren, in een andere het speciale deksel voor composteerbaar biologisch afval. Het afvalstelsel is uitgerust met een compleet deksel, waarop er benodigheden opgeborgen kunnen worden.

- onderbrenging van het reservoir voor kokend water Quooker PRO3, COMBI, COMBI+ en van het reservoir voor koud water Quooker CUBE met CO<sub>2</sub>-cilinder
- inclusief een ordehulpmiddel voor de kabel- en slanggeleiding
- met een afzonderlijke houder voor de Quooker waterfilter
- voor 600 mm brede onderkasten
- techniek: compleet uittreksysteem met soft intreksysteem en demping
- kleur van frame/onderstel/geleider/compleet deksel: antraciet
- montage aan kastwand, kastbodem en frontpaneel
- aansluiting van het Quooker reservoir en van de kraan op het hoekventiel vindt plaats vóór het meubel. Daarna wordt het frame-element met CUBE, PRO3 reservoir, COMBI, COMBI+ en CO<sub>2</sub>-cilinder ingeschoven en door schroeven bevestigd.
- eenvoudige demontage door het losdraaien van twee schroeven voor onderhoudswerkzaamheden

Cox® Base Q+ 360 S/370-1

Cox® Base Q 360 S/400-2

### Cox® Base Q+

Quooker®

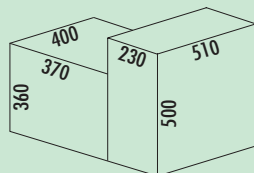

The Cox®-Base-Q+ system is ideally suited for mounting a Cox® Base 360 S together with the Quooker CUBE, PRO3, COMBI and COMBI+. The perfectly coordinated modules provide for the space-saving arrangement of all the necessary components in a sink base unit in a **600 mm wide** sink base unit.

The fitting is carried out in just a few steps, and it is possible to respond to the given installation situation with maximum flexibility. In the rear area there is sufficient space for water connections as well as hose and cable routing. **In addition, the reservoirs can be positioned on the left or on the right of the Cox® Base.**

A holder to accommodate the cube filter can be ordered as an option.

Container fitting system/litres	
Cabinet body	600

Waste collectors

### Cox® Base Q+ 360 S/370-1

Quooker®

For positioning in a sink base unit with a **width of 600 mm.**

- **simple, quick and flexible installation**
- **positioning of the reservoirs on the left or on the right of the Cox® Base possible**
- sturdy construction for mounting on the cabinet side wall, front panel and on the underside
- integrated hose and cable management
- simple replacement of the CO<sub>2</sub> cylinder
- Quooker system can be set up and connected **in front of the cabinet. The extension hoses required for this are listed below as accessories and can be ordered directly from Quooker.**
- waste volume 22 litres
- **waste system with soft retraction and damping**

**8013378** anthracite, H 360 mm **498.33 €**

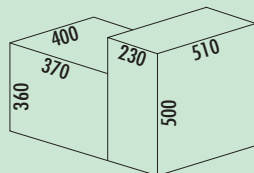

#### Optional accessories

**1051017** Space-saving connector, white **5.63 €**

## Pull-out technology with front pull-out

### COX Base-Board®

Cox Base Board® is a perfect supplement to the Cox® Base waste collector, convincing due to high quality, convenient handling and perfect pull-out technology.

- GRASS self-retracting full pull-out technology with self-closing and Airmatic soft-impact proven in long-term tests
- smooth operation and lateral stability even under full load
- stable metal frame, powder-coated
- optimum fit of the plastic containers
- perfect use of space in the base cabinet due to flexible positioning of the containers
- available for cupboard widths 500 mm, 600 mm and 900 mm
- exactly fitting assembly using the "quick & easy" assembly plate, also suitable for the retrofitting of existing Cox® Base waste collectors

Cox Base-Board® – competitive edge due to perfectly attenuated pull-out technology!

Waste collectors

### Cox Base-Board® convinces due to easy assembly:

1. Pull out the depositing lid of the existing Cox® Base waste system.

2. Insert GRASS guide into the mounting plate, attach to the existing Cox® Base plastic rail and mount flush to the body ("quick & easy").

3. Replace the depositing lid of the existing Cox® Base waste system.

4. Mount the metal frame on the pull-out rails.

5. Attach container to the metal frame with the supplied brackets.

6. Mount the pull-out frame on the pull-out rails with the front connection. Finished!

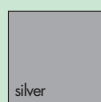

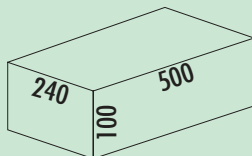

## Cox Base-Board®

Cox Base Board® is a perfect supplement to the Cox® Base waste collector, convincing due to high quality, convenient handling and perfect pull-out technology:

- H 100 mm
- **depth of the guide rail 470 mm**
- GRASS self-retracting full pull-out technology with Airmatic soft-impact, proven in long-term tests
- smooth operation and lateral stability even under full load
- stable metal frame, powder-coated
- optimal utilisation of space of storage boxes by flexible positioning of the boxes by means of separate brackets
- available for cupboard widths 500, 600 and 900 mm
- exactly fitting assembly using the "quick & easy" assembly plate, also suitable for the retrofitting of existing Cox® Base waste collectors

Cox Base-Board® – competitive edge due to perfectly attenuated pull-out technology!

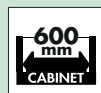

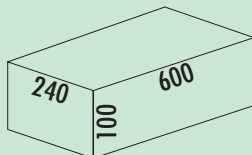

## Cox Base-Board® 500

- height 100 mm
- guide rail depth 470 mm
- 1 x 2.7 l and 1 x 1.2 l storage boxes and 4 brackets included
- uniform design to Cox® Base
- technology: full pull-out
- fitting: cabinet wall
- **with soft retraction and damping**

## Cox Cick-E® 600

- **electric ejector for Cox® waste collectors**
- **suitable for Cox® Base waste collector with 400 mm installation depth and 600 mm width**
- space-saving and invisible installation behind the waste collectors
- activation of pull-out mechanism by gently touching the pull-out front
- alternative mounting positions to avoid obstacles on site (e.g. water connection)
- attachment of the crossbar to existing holes of the Cox® waste collector
- 230 V electrical connection
- compatible waste collectors: 8012304, 8013304, 8012305, 8013305, 8012315, 8013315, 8012308, 8013308, 8012316, 8013316, 8012317, 8013317, 8012373, 8013373, 8012374, 8013374, 8012375, 8013375, 8012377, 8013377, 8012376, 8013376, 8012406, 8013406, 8012446, 8013446, 8012354, 8013354

8012368	W 600 mm, dark grey/chrome matt	469.83 €
---------	---------------------------------	----------

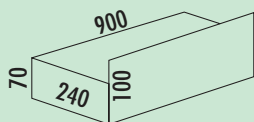

### Cox Base-Board®

Cox Base Board® is a perfect supplement to the Cox® Base waste collector, convincing due to high quality, convenient handling and perfect pull-out technology:

- H 100 mm
- **depth of the guide rail 470 mm**
- GRASS self-retracting full pull-out technology with Airmatic soft-impact, proven in long-term tests
- smooth operation and lateral stability even under full load
- stable metal frame, powder-coated
- optimal utilisation of space of storage boxes by flexible positioning of the boxes by means of separate brackets
- available for cupboard widths 500, 600 and 900 mm
- exactly fitting assembly using the "quick & easy" assembly plate, also suitable for the retrofitting of existing Cox® Base waste collectors

Cox Base-Board® – competitive edge due to perfectly attenuated pull-out technology!

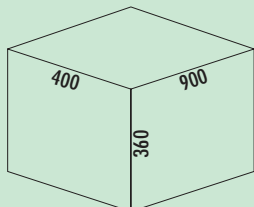

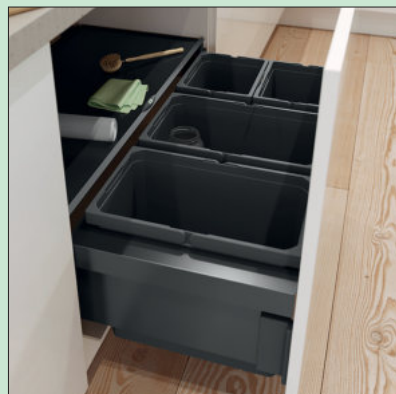

### Cox Base-Board® 900

- height 100 mm
- guide rail depth 470 mm
- 2 x 2.7 l and 2 x 1.2 l storage boxes and 4 brackets included
- uniform design to Cox® Base
- technology: full pull-out
- fitting: cabinet wall
- **with soft retraction and damping**

### Bio-lid

Includes 4 activated carbon filters (assumed annual requirement) as retrofitting set for Cox® Base replacement bucket 4, 6, 7, 10 and 12.5 liters.

8011312	light grey, for 4/ 6/ 7/ 10/ 12.5 liters	14.79 €
8013312	anthracite, for 4/ 6/ 7/ 10/ 12.5 liters	14.79 €

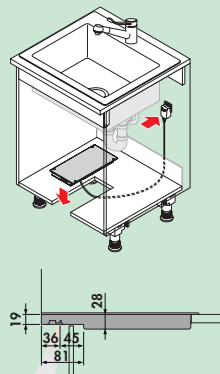

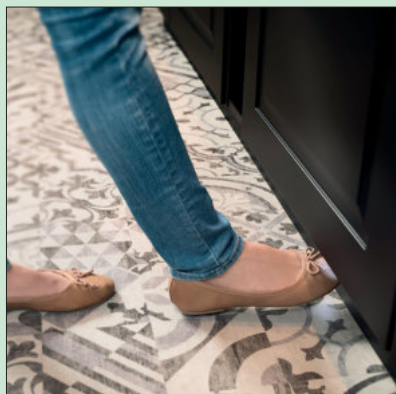

### Cox Cick®

Cox Cick® is a manual foot pedal that enables effortless access to the Cox® Base and Cox Clan® waste collectors. Thanks to the ergonomically pleasantly designed pedal position, the waste system opens completely with little force. After operation, the opening mechanism automatically returns to its original position with the aid of a spring. In this way, near-silent operation is guaranteed when opening and closing. The assembly is simple and quick due to two moulded lugs with position fixing. The necessary drilling points are easily found by means of a plastic assembly aid.

- bracket projection on 16 gauge front 34 mm
- bracket projection on 19 gauge front 31 mm

8012367	dark grey/chrome matt	66.47 €
---------	-----------------------	---------

### LED foot kick Libero 3.0 with voice control

Motor-controlled ejector for all pull-outs with front extension.

**Compatible with Alexa (Amazon) voice control systems.** Installation in the front area of the bottom of the cupboard.

Required base recess from cabinet edge: ca. 50 mm, **base height min. 100 mm**

Power supply: up to 230 volts, conventional sockets with 2000 mm cable

USB-C/USB plug, drip-proof according to IP21.

- simple operation by foot sensor and/or voice control
- for base units from 300–1200 mm wide
- integrated LED indicator lighting, dimmable, can be switched off
- ejector strength adjustable, sensor sensitivity adjustable
- intelligent control, detects obstacles thanks to sliding clutch
- **product dimensions: 33 x 157 x 300 mm (H x W x D)**
- **cut-out dimensions: 127 x 286 mm (W x D)**

## Container system

### Cox Work® – all your utensils at your fingertips

The many useful little things of everyday life also need a place where they are always to hand. Cox Work® was developed as a practical kitchen aid and has quickly established itself as a well-designed standard supplementary tool in the Cox container programme.

Aesthetic and constructive "stand-alone qualities" and an intelligent division system extend the range of applications far beyond the kitchen and household. In the office, in the workshop, in the garden and in many other hobby areas, Cox Work® saves unnecessary time spent searching for the right utensil.

- Cox Work® includes the following system parts (scope varies per set): box, small part box, 2 U-dividers and 2 V-dividers
- Cox Work® can be fittingly inserted into the 13, 16, 22 and 28 litre containers of the Cox®-container system with the system dimension 230 x 382 mm (W x D)
- Cox Work® is available in the colours light grey and anthracite
- material: ABS plastic
- dimensions H x W x D 161.5 x 361 x 209 mm

### Applications

- toolbox insert for the Cox® container system
- office utensils box
- toolbox
- hobby box
- garden helper box
- BBQ cleaner box
- bottle box

reddot award 2019  
winner

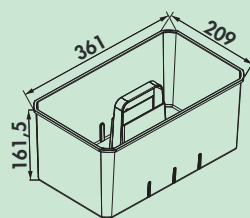

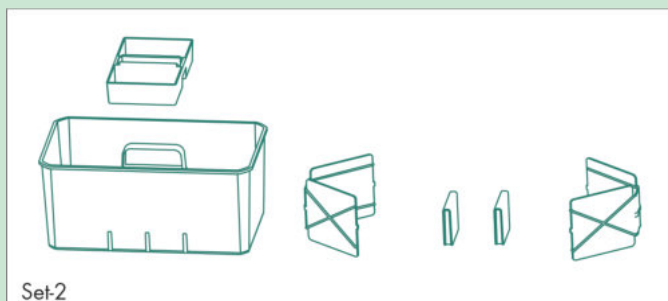

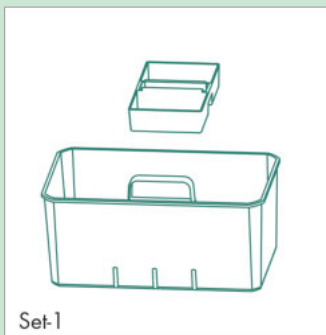

### Cox Work®

Functional and well-organised storage space is becoming increasingly important, not only at the kitchen workplace. The well-designed Cox Work® utensil box is a practical organisation aid and can be intelligently used as a free-standing element or behind front pull-outs in Cox® systems for the orderly placement of various work materials and accessories.

Cox Work® is offered in three different versions:

- Version 1 includes Cox Work® Box in the desired colour.
- Version 2 includes a small parts box, in addition to the Cox Work® Box, which is elegantly fitted via the integrated handle and provides space for many little things.
- Version 3 also includes two V- and U-shaped dividers. These subdivide Cox Work® and create clearly structured storage space.

### Cox Work® Concrete

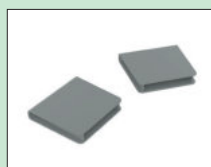

Utensil box. For storage of, e.g. brushes, cleaners, tabs and cloths.

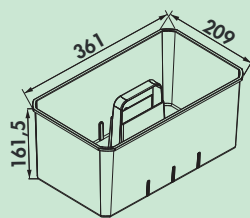

- mobile utensil box, light grey
- various applications
- can be integrated into all Cox® container systems with Cox® system dimensions 230 x 382 mm

<b>8012530</b> Cox Work® Box	<b>57.06 €</b>

### Top frame with clamping hook for Cox® Base 360 R

Waste collector as front pull-out system with soft retraction and damping.

- installation height 360 mm
- installation depth 400 mm
- **depth of the guide rail 470 mm**
- "quick&easy" installation frame for various cabinet thicknesses (16/19 mm)
- "nova Pro" guide rail
- functional design
- **with top frame for several bags**

#### Top frame with clamping hook for Cox® base 360 R:

##### Cox® top frame with clamping hook

As a practical accessory for the large-volume waste container the optional two-piece top frame makes it possible to conveniently insert rubbish bags of various sizes into the plastic containers. Individual and practical for every requirement.

##### Cox® top frame for bag attachment

The innovative two-piece clamping frame system enables the use of different sizes of rubbish bag.

Depending on your preferences, two small or one large bag can be clamped in.

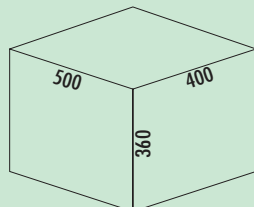

##### Mounting in a jiffy

Clip the two halves of the top frame onto the top edge of the waste collector. After inserting the rubbish bag into the container, the rubbish bag is pulled down through the support frame and fastened on the outside with the corresponding clamping hooks. Finished!

##### Especially for Swiss garbage bags

The Cox® Base 460 R waste container with top frame is ideally suited for standard Swiss garbage bags with 35 litres.

## Pull-out technology for front pull-out

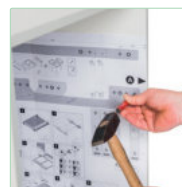

### Cox Clan® – Waste collectors for large waste volume

The sophisticated waste collector Cox Clan® is the continuation of the success story of the Cox® system series. As the "big brother" of the Cox® Base systems, it is ideally suited for holding high volumes of waste.

- GRASS full pull-out and over-extension technology with self-retraction and Air-matic soft-impact, proven in long-term tests
- smooth operation and lateral stability even under full load
- reinforced metal housing frame for container holder, powder-coated
- equipped with metal lid, powder-coated
- suitable for 16 mm and 19 mm side thicknesses
- available for five cupboard widths and in various heights
- installation depth amounts to 516 mm

### Cox Clan® convinces due to easy assembly:

1. Transfer the mounting points in the body using the template.

2. Mount the pull-out rails and locating pins for the depositing lid.

3. Place the depositing lid on the pins and hook the pull-out frame into the pull-out rails.

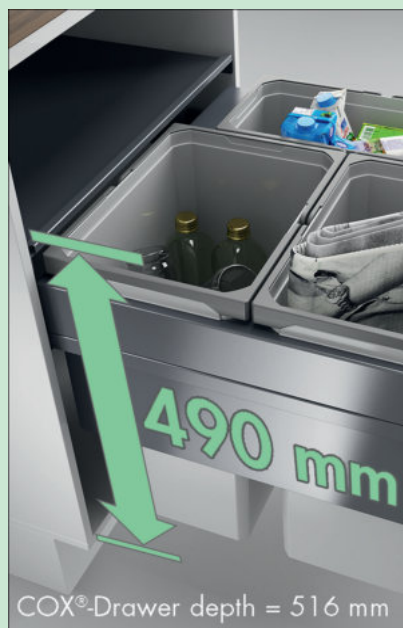

4. Mount the front attachment using the template.

5. Hang the front plate into the pull-out frame and fasten it, then clip on the plastic covers.

6. Insert containers. Finished!

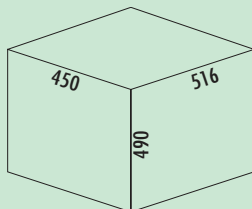

### Cox Clan® 490

Waste collector front pull-out system for large waste capacity with soft retraction and impact attenuation.

- installation height 490 mm
- installation depth 516 mm
- **depth of the installation frame 510 mm**
- "quick&easy" installation frame for different body thicknesses (16/19 mm)
- "nova Pro" guide rail
- functional design

### Cox Cick®

Cox Cick® is a manual foot pedal that enables effortless access to the Cox® Base and Cox Clan® waste collectors. Thanks to the ergonomically pleasantly designed pedal position, the waste system opens completely with little force. After operation, the opening mechanism automatically returns to its original position with the aid of a spring. In this way, near-silent operation is guaranteed when opening and closing. The assembly is simple and quick due to two moulded lugs with position fixing. The necessary drilling points are easily found by means of a plastic assembly aid.

- bracket projection on 16 gauge front 34 mm
- bracket projection on 19 gauge front 31 mm

## Pull-out technology for existing pull-outs

### Cox Stand-UP®

Kitchen base cabinets with front pull-out are available in several widths and various frame and front heights for kitchen planning. Naber provides waste collector combinations that make perfect use of the storage space in a comparable range of sizes.

- The waste system Cox Stand-UP® offers three container heights and can be configured for four different cabinet widths.
- Cox Stand-UP® is quick and easy to install; existing front pull-outs can also be equipped without any problems.

To provide kitchen users with the largest possible container volume, Cox Stand-UP® is highly flexible in design and adapts to any cabinet situation with or without a water connection.

- The complete lid of the system can also be installed behind the top front to save space and thus maximise the total possible volume.
- Note: 350 mm high waste collectors can be safely accommodated behind a 390 mm high cabinet front.

The high-quality containers are securely positioned in a floor-mounted frame. As optional accessories, sealing lids – also in the version for organic waste – make domestic waste and recycling management even easier.

Cox Stand-UP® 250 S

Cox Stand-UP® 280 S

Cox Stand-UP® 350 S

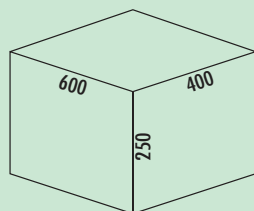

Cox Stand-UP® 350 K

### Cox Stand-UP® 250 S

The Cox-Stand-UP® waste system 250 is ideally suited for quick installation on existing pull-outs with a **nominal depth of 450 mm and 500 mm**. The total height of the system is 250 mm, whereby the **clear installation height is only 240 mm**. Depending on the installation situation, the fixed complete lid can also be mounted behind the upper front to save space. The maximum frame height (dimension from the pull-out shelf to the top edge of the frame) is 145 mm. The Cox-Stand-UP® waste system is available in different heights, cabinet widths and bucket combinations.

# SELECTAkit®

## Pull-out technology for existing pull-outs

### Cox® Box 235/275

Cox® Box 235 S is the sophisticated individual built-in waste collector solution for existing pull-out technology.

- suitable for existing pull-outs from all manufacturers
- individual container-configuration for many applications
- easy installation due to cut-to-size anti-slip mat under the containers
- continuous fixed metal lid over all the containers, powder-coated
- available for eight cabinet widths and for low container height 216/256 mm, installation height with metal lid 235/275 mm
- optional single closing lid or bio lid with activated carbon filter

### The Cox® Box convinces due to easy assembly:

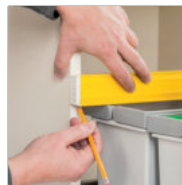

1. Measure the bottom of the pull-out and cut anti-slip insert mat to size.

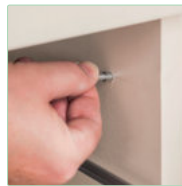

2. Insert anti-slip insert mat.

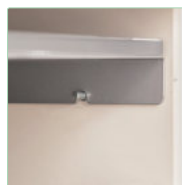

3. Place the container in the pull-out.

4. Measure the container height and transfer to body.

5. Drill and insert the lid locating pins into the side of the body.

6. Mount the depositing lid on the locating pins. Finished!

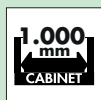

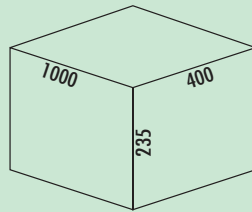

### Cox® Box 235 S

The Cox® Box waste collection system is ideally suited for a multi-part front.

- with fixed silver-coloured metal lid
- with non-slip mat, TPE-coated on both sides
- for installation on existing pull-outs
- **the height of the entire system is only 235 mm**
- **The total lid can be mounted behind the top front to save space.**

### Cox® Giallo

Cox® Giallo lets the bin bag disappear elegantly and invisibly behind the front. An integrated clamping bracket fixes the bin bag. The collecting tray below the bin bag ensures that, if the worst comes to the worst, no liquids get into the furniture body. The integrated metal lid minimises odours.

### Cox® Giallo

Pullout box frame for the bin bag, for mounting on existing pull-outs.

- for all common pullouts
- waste volume approx. 43 liters
- total height **620 mm**
- metal lid (side wall mounting)
- mounting: pull-out base and front panel
- with removable collecting tray and foldable holding clamp
- **The clear internal width of the pullout must not be less than 180 mm.**

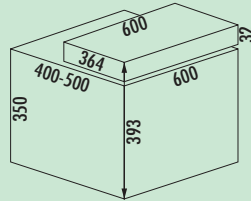

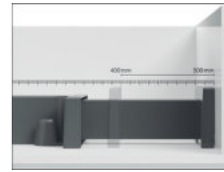

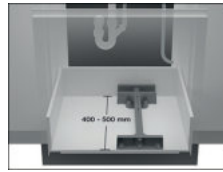

8012378 silver

### X-LINE

The X-LINE series for existing drawer pull-outs combines practical advantages with space-saving design. The waste separation systems can be quickly installed and are also easy to remove. This makes cleaning as simple as possible. With the adjustable ratchet included, the waste system can be used in all drawers with a depth of 400–500 mm. This ensures that the storage space is optimally utilised, and the system adapts seamlessly to the different widths, heights and depths of the kitchen installations.

### X-LINE 600/M7 with Basic drawer

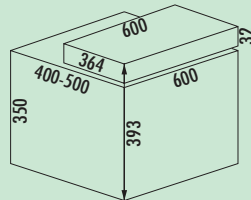

For mounting on existing pull-outs. Drawer with part pull-out on plastic runners.

- variable installation depth 366–494 mm
- installation height 367 mm
- waste volume 50 (1 x 35/1 x 15) liters

**8011295** anthracite **263.53 €**

#### Optional accessories

**8011084** X-LINE Dividing strip, anthracite **37.82 €**

### X-LINE 600/M5 with Basic drawer

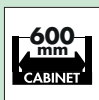

For mounting on existing pull-outs. Drawer with part pull-out on plastic runners.

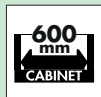

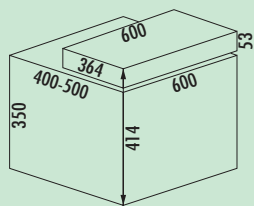

- variable installation depth 366–494 mm
- installation height 367 mm

### Clap

The successful combination of convenience properties in smooth-running design with the optional versatility of waste separation down to fractions makes Clap an all-rounder in its class. Ultimately, its attractiveness is not only defined by its economic construction and design. Corresponding to the Naber product concept "the next generation", all materials employed are fully recyclable.

- fitted with telescopic full pull-out with ball bearings
- sturdy plastic containers for individual separation of recyclable materials
- covering of the body structure may be used for storage of dishwashing paraphernalia
- easy installation due to simple mounting on the cabinet floor

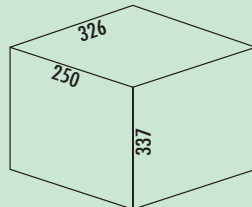

### Clap 1/300-1

- telescopic rails on ball bearings glide very easily and ensure full pull-out of the waste bucket
- pans for paraphernalia, for instance for cleaning paraphernalia, the pans may easily be removed for cleaning
- metal parts with high-quality finish

### Rondo 1 plus

For corner cabinets from 900 x 900 mm.

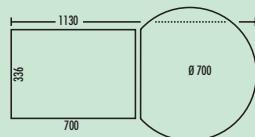

- waste capacity 36 (2 x 18) liters

**Extra equipment:**

- multi-functional bucket (12 liters) with perforated lid
- 2 pans for paraphernalia
- complete lid with depositing surface
- technology: full pull-out/rotatable
- fitting: cabinet bottom/360° rotatable
- the ideal space saver with an installation height of only 351 mm

8011161 light grey

371.01 €

### Rondo 2 plus

For corner cabinets from 900 x 900 mm.

- waste capacity: 34 (1 x 18/2 x 8) liters

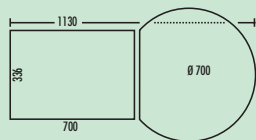

**Extra equipment:**

- multi-functional bucket (12 litres) with perforated lid
- 2 pans for paraphernalia
- complete lid with depositing surface
- technology: full pull-out, rotatable
- fitting: cabinet bottom, 360° rotatable
- the ideal space saver with an installation height of only 351 mm

8011162 light grey

381.76 €

### Rondo 3 plus

For corner cabinets from 900 x 900 mm.

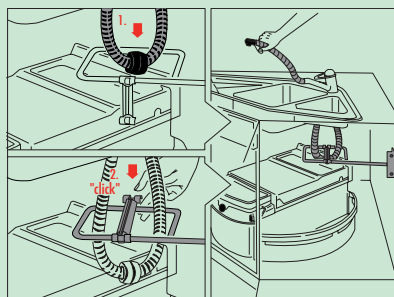

– waste capacity 32 (4 x 8) liters

**Extra equipment:**

- multi-functional bucket (12 liters) with perforated lid
- 2 pans for paraphernalia
- complete lid with depositing surface
- technology: full pull-out/rotatable
- fitting: cabinet bottom/360° rotatable
- the ideal space saver with an installation height of only 351 mm

8011163 light grey

397.06 €

### Rondo plus deflector for hoses with shower head

For all common hose fittings with shower head.

- easy installation by screwing to the floor cupboard
- forced routing of the hose in the remaining free spaces, right, left, rear, top
- installed appliances are not impaired in their function
- metal yoke, powder coated with epoxy resin
- optimal accessory for Rondo plus

## Corner solutions

### Rolling cart DS

#### Optimum utilisation of space down to the last corner

"How can I use the corners?" is a question some kitchen planners may ask. Especially when every centimetre is precious. You can achieve optimum space usage down to the last corner by employing the rolling cart DS for all rotating door built-in waste collectors and separating systems (see next page). Using the cart, which may be moved all the way back, the spaces to the sides of the waste collector remain accessible and may be used as storage space for cleaning paraphernalia and other items.

#### Pulled-out position

Pulled-out all the way to the front, the waste collector can be comfortably filled from above.

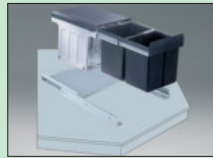

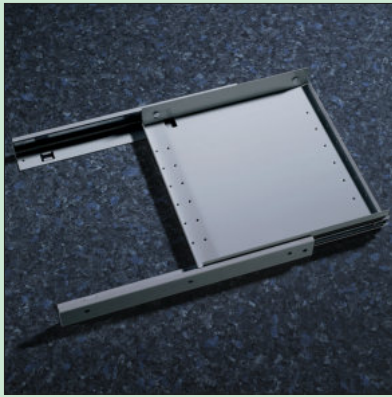

#### Parking position

The waste collector takes up very little space in parking position. From this basic position, it may be slid to the front as well as, after shortly lifting it, to the back.

#### Resting position

Lifting the waste collector releases the lock of the rolling cart. Now, it may be pushed all the way back. The lateral storage spaces are therefore easily accessible.

### Rolling cart DS

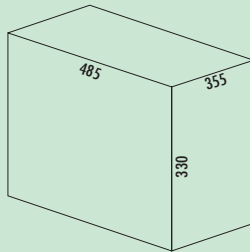

Installation in diagonal corner cabinets with a door span of at least 355 mm.

Also suitable for cabinets underneath sinks.

- 55 x 355 x 410/606 mm (H x W x D)
- sturdy, powder-coated steel plate

8011134 white 75.46 €

8011136 aluminium grey 75.46 €

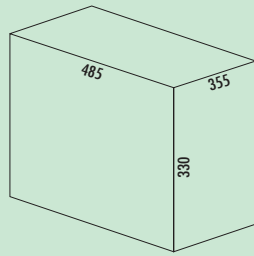

### Double Master 2 DS

Including rolling cart DS.

- waste capacity 32 (2 x 16) liters
- technology: full pull-out
- frame/guide silver
- complete lid anthracite
- the ideal space saver with an installation height of only 330 mm

## Swivel technology for rotating doors

### Cabbi® & Cabbi® junior

An intelligent solution with easy handling for collecting organic waste without bothersome odours. A tightly fitting bio-lid with detachable perforated cartridge, which is fitted with an activated charcoal polyester fleece as odour filter.

Overall, the Cabbi® concept is convincing due to its extraordinary quality and a large variety of performance characteristics:

- very sturdy carrying axle construction
- may be easily installed
- optimum use of space
- easy-action cam
- lid with raising/lowering technology
- easy access to the floor cupboard
- clamping strips ensure fixed position
- environmentally compatible basic materials
- convenient wire basket as accessory
- tightly fitting bio-lid

### Cabbi® & Cabbi® junior are easily installed:

1. Assemble rotating support and pipe support bracket.

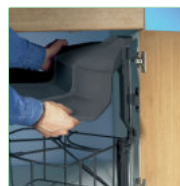

2. Complete and insert rotating rods.

3. Install cam.

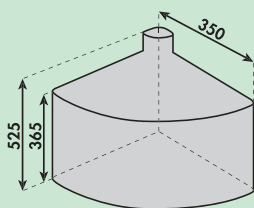

4. Install basket in rotating bar.

5. Clip lid on.

6. Insert containers.

Quick and handy – installed directly in the working surface.

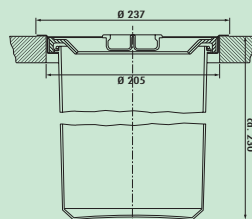

Also suitable for flush installation.

— installation dimension Ø 205 mm

— outside Ø 237 mm

— waste capacity 5 liters

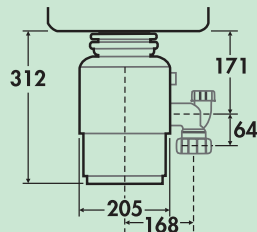

**8011031** stainless steel with plastic insert **127.56 €**

**8011032** stainless steel with aluminium insert **167.98 €**

### Waste disposal units

- Simple, time-saving cleaning: Food residue is flushed right down the drain with the wastewater.
- Safe and simple operation: have cold water flowing, switch on the device and throw leftovers down the plughole. The disposal device liquefies the leftovers (without knives and blades), which are pressed to the grinding surface of the outside wall by centrifugal force and disintegrated into minute parts by the pressure.
- The disposal device frees the waste bucket of kitchen waste causing disagreeable odours and smeary food residues.
- Disposal of almost all kitchen waste: Even hard bones cannot damage this sturdy device.
- Maintenance-free and self-cleaning: High quality stainless steel and other durable materials. The high-performance motor was developed especially for this disposal device. The disposal device cleans itself through regular use and does not require any chemical cleaning agents.
- **Before installing the waste disposal unit, please contact the competent authorities for information on the regional legal regulations!**

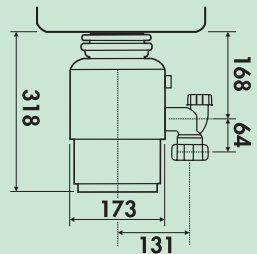

### Evolution 100

The kitchen waste disposal device may be continuously filled. Automatic change of rotational direction to extend the service life and for trouble-free use. Stainless steel grinding chamber 1 l, low-noise, with enclosed air break switch in chrome and brushed nickel, 2-way grinding process, overload switch with manual reset switch, splash-proof, GS connection, motor with 0.7 hp. Suitable for 3½" drains. **Before installing the waste disposal unit, please contact the competent authorities for information on the regional legal regulations!**

- Ø 205 mm
- weight 8.8 kg
- 40 % quieter than standard
- drill Ø for air switch 35 mm
- 520 watt, 1,400 rpm

8012031 anthracite, H 312 mm

1373.95 €

### Model 56

Kitchen waste disposer with single-stage grinding technology, can be filled continuously. Food residues are crushed into small particles and washed away in seconds. Durable and compact built-in household solution under the sink, without loss of valuable storage space. Quick Lock® mounting system for quick and easy installation. Motor with 0.55 hp, stainless steel grinding elements and integrated air switch in chrome and brushed nickel. Overload protection. Suitable for 3½" drains. **Before installing the waste disposal unit, please contact the competent authorities for information on the regional legal regulations!**

- Ø 173 mm
- weight 7.2 kg
- capacity of the grinding chamber 980 ml
- connection to the drain pipe 40 mm
- drill Ø for air switch 35 mm
- 380 watt, 1725 rpm

8012034 anthracite, H 318 mm
