

ACCO-
MODA®

Niche
equipment

Space for
ideas

Niches provide room for creativity! As an area in the kitchen, they are so taken for granted, that their functional and aesthetic benefits have long been overlooked. ACCOMODA® makes it easy to make skilful use of this potential. Visual features become a charming focal point, railing or shelving systems create storage options. The kitchen gains new charisma.

Niche rear walls can be used to create boldly colourful, elegant and unobtrusive or nuanced and minimalist eye-catchers. The niche rear wall configurator, accessible free of charge on naber.com, provides freedom for individual design ideas and allows you to use your own picture motifs.

Everything you need close at hand can be arranged on multi-functional railing systems. Extremely flexible wall shelving systems convince with their design and flexible configuration options.

And in the end, it is often the most inconspicuous components that give the kitchen the right finish: for example, precisely placed wall connection profiles. This is how to set the tone!

Niche rear walls

Niches provide plenty of space for creativity

Niche rear walls can be used to create boldly colourful, elegant and unobtrusive or nuanced and minimalist eye-catchers. The imaginative designs of the PICit® line and perfectly fitting panelling in glossy or matt solid colours in the BASICit® range conjure up an individual atmosphere in every kitchen. MySCENEit® also gives you the option of creating and realising niche rear walls entirely in your customer's own very personal style.

Wide variety of motifs

PICit® niche rear walls

A fascinating selection of amusing and graphically appealing motifs in "kitchen art style" makes it easy to inspire customers in the sales consultation who want to give lively and individual expression to their lifestyle.

Simply colourful!

BASICit® niche rear walls

Nuanced colour schemes are effective wherever exclusivity is required. All the available RAL-CLASSIC colours can be freely selected, either in a high-gloss or matt finish. Making niche rear walls into harmonious eye-catchers.

Personal motifs

MySCENEit® niche rear walls

Your customers would like to express their own personal taste or capture beautiful memories when designing a niche rear wall? MySCENEit® offers them endless possibilities for adding their favourite images. For this, simply use the design functions of our convenient niche rear wall configurator.

For creative notes

PICit® Tafel niche rear walls

Particularly eye-catching: the kitchen rear wall PICit® Tafel can be individually customised with chalk. Shopping tips or cooking ideas can be included as additional decorative elements. The PICit® Tafel is also available in a magnetic version!

Niche rear walls

The right material and format

The niche rear walls are made of aluminium composite or acrylic glass panels. The digital print is UV-protected and heat-resistant. Aluminium composite panels can also be equipped with a magnetic surface so that the niche rear wall can also serve as a clever pinboard. The light weight, high break resistance and individual processing on site by drilling holes and making cut-outs facilitate the planning, transport and installation of this kitchen highlight.

Aluminium composite

Material thicknesses and structure

3,5 mm: on the aluminium composite plate is the motif film, which is covered by a transparent UV protective laminate (wipeable).

16 mm: in this case, an appropriately strong hard foam plate (flame resistant) is also bonded.

Material finish

The aluminium composite niche rear walls are available with a glossy or matt finish.

Magnetic surface

As an option, all aluminium composite niche rear walls can be equipped with a magnetic function.

Acrylic glass

Material thicknesses and structure

3,5 mm: behind the acrylic glass with a scratch-resistant coating are the motif film, a protective laminate and a thin hard foam plate (flame resistant).

16 mm: the hard foam board on the back is correspondingly thicker here.

Material finish

The acrylic glass niche rear walls are only available with a glossy finish.

Size and format

The designs are configured for a maximum height of 700 mm and a maximum length of 3050 mm. Special formats are also possible on request. The exact image section has to be agreed.

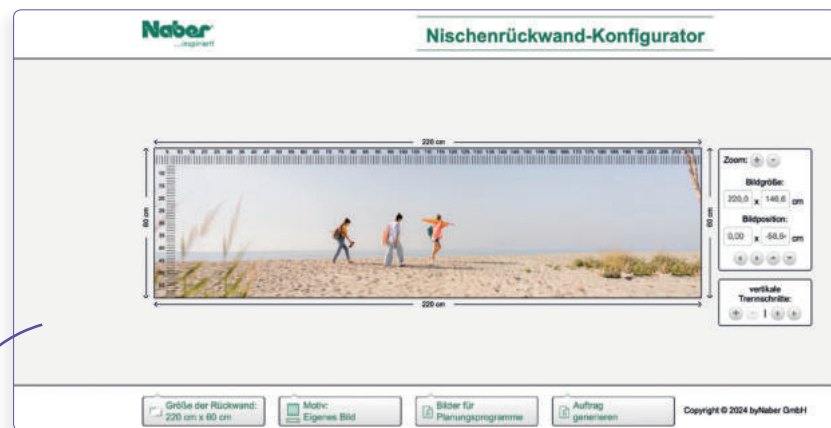

Minimum invoicing unit 1 m² per commission/order.

Niche rear walls

MySCENEit® – personal motifs

Your customers would like to express their own personal taste or capture beautiful memories when designing a niche rear wall? MySCENEit® offers them endless possibilities for adding their favourite images. You support them in the kitchen showroom or directly on site, using your expertise and the design functions of our niche rear wall configurator to create the best possible configuration.

With the configurator, it is extremely easy to customise the individual motifs to the desired wall size, taking cut-outs and drill holes into account. In this way, a jointly developed design solution results in a rear wall with a very individual character. A unique item that brings a distinctive flair to any kitchen!

Technical prerequisites

- accurate measurement on site
- combine a maximum of 3 image files
- file formats: JPG, PDF, TIFF, PSD, PNG, EPS
- colour space: CMYK (please note: RGB data is converted to CMYK data with visible colour deviations.)

Additional services

To meet the format and product-specific design requirements, we charge a flat-rate layout fee (8060001) for data checking and a maximum of two proof copies.

Cut-outs and milling work (e.g. for extractor hoods and sockets) are charged additionally (8060002).

Niche rear walls

The right accessories

From useful to indispensable: the accessories ensure that the appearance and functionality of the chosen niche rear wall are a perfect match. Whether it's a splash guard, a rear wall top light or profiles – everything is perfectly coordinated.

U-angle profiles

The stainless-steel U-angle profile provides a neat finish to every niche rear wall.

Page 627/25 EN

Prova colour change LED

The Prova colour change LED rear wall top light provides optimum illumination.

Page 625–626/25 EN

Wall joint profiles

Wall joint profiles give the niche rear wall a neat and decorative finish.

Page 678/25 EN

Sockets

All niche rear walls can be individually finished on site with customised holes and cut-outs.

Page 419–466/25 EN

Niche rear walls

All the important information at a glance

We carry out the complete production according to your measurements. We print on a high-performance film equipped with a UV-resistant protective laminate. **Guaranteed colour fastness: 5 years!** If you have any questions on the topic of niche rear walls, your regional team is happy to help.

Configurator

At naber.com (menu point "Service"), you will find our freely accessible niche rear wall configurator. Here you can process catalogue motifs as well as the customer's own images and motifs. For customer motifs, a minimum resolution of 8 megapixels applies. The designs created can be downloaded and checked free of charge. **Your online advantage:** there is no layout fee when designing with our configurator – with the exception of customer-specific designs.

Flat-rate layout charge, data transfer and cut-outs

The flat-rate layout charge (order no. 8060001) is applied when catalogue motifs or the customer's own images are retouched according to individual wishes. The layout charge includes two proof copies. If texts and logos are to be inserted into the motif, vectorised data needs to be supplied for this. The data can be sent digitally by data transfer or otherwise by post on standard storage media. Cut-outs, for example for extractor hoods or sockets, are also charged additionally at a flat rate (order no. 8060002).

Order no.	Item/Description	per pc. excl. VAT
8060001	layout package	100.31 €
8060002	notch	100.31 €

Offer and order

After viewing the image material, you receive a detailed offer that also includes the costs of the layout charge if required. You receive a proof copy for checking. If you like the offer, send us a binding order and print release. Change requests are only possible within 24 hours of the order release. Each change process is charged at the flat rate layout charge 8060001. The delivery time is approx. 4 weeks after the order release.

Installation instructions and care

- Mechanical processing with standard tools for wood and plastic processing. (For acrylic glass, we recommend processing at a low rotational speed.)
- Before installation, the substrate needs to be dry and free of dust and grease.
- The rear wall can be attached using standard mirror mounting tape or silicone. (The edges also need to be sealed with silicone.)
- Please note the required minimum distance of 50 mm for hobs.
- For gas hobs, we also recommend installing "Spruzzo" (glass splashback, catalogue 1 BASICS page 624/25 EN).
- Cut-outs/corner connections by mitre milling can be carried out on site.
- When cleaning the niche rear walls, only use soft cotton cloths and solvent-free soapy water without additives.

BASICi®

Integrate your favourite colour in your kitchen. We deliver your BASICi® in all RAL-CLASSIC-colours.

Please quote the RAL-colour code when ordering!

Niche rear walls

PiCit® and MySCENEit®

Information on design sections and bleeds

We demonstrate the differing representation of sections and bleeds on the basis of the motif PiCit® 8 (birch forest). The sections shown here are for illustration purposes only and are merely layout examples.

Original motif:

Dimensions
3050 x 700 mm

If you require a format that remains on a scale of 1:4 to the original, the design is proportionally a whole.

In all the other formats, parts of the design are trimmed.

Example:

narrow format

Example:

low format

Example:

exhaust hood area

In case of special formats, an agreement on the image section is always required.

Niche rear walls

TOPit

Spazzolato

The characteristic appearance of the TOPit Spazzolato surfaces is created by a special process in which a surface polish is rolled into the cover sheet and then finished with clear varnish. This surface in brushed aluminium look lends exclusivity and a highly personal expression, making every kitchen niche more attractive.

Five colours support the convincing integration into a wide range of styles of discerning living kitchens.

Spazzolato rosé

Spazzolato gold coloured

Spazzolato stainless steel coloured

Spazzolato anthracite

Spazzolato copper coloured

TOPit features:

Aluminium composite plate with high-quality surfaces

Effortless processing as with the PICit rear walls

Hard-wearing, lastingly beautiful appearance

A high-quality combination of striking elegance and excellent functionality

Manufactured according to high quality standards, free of any hazardous materials

Due to the manufacturing process, deviations from the illustration shown are possible.

Accessoires for niche rear walls

Well matched

■ Spruzzo	Page 624
Glass shelf	Page 624
Prova colour change LED	Page 625–626
Stainless steel angle profile strips	Page 627

Spruzzo

Splash protection for fastening to the worktop. The bolted connection is fastened underneath the worktop. May be used for stove tops and sinks, also in gastronomy and shop construction. May also be used as a screen.

Spruzzo

Console. Splash protection. Suitable for 8 mm glass plate thickness.

- drill Ø 6 mm
- **glass shelves to be ordered separately**

3021132 stainless steel coloured, H 200 mm, Ø 20 mm, price per pair **77.39 €**

3021134 black matt, H 200 mm, Ø 20 mm, price per pair **77.39 €**

Glass shelf

Optional accessories for Spruzzo (3021132, 3021134), Kaiman (3021078, 3021092), Prior (3021032, 3021035), Akro (3021009) and Moon (3021090, 3021091).

- high-quality glass plates with polished edges
- thickness 8 mm
- depth 200 mm

3021014 clear glass, L 580 mm **47.04 €**

3021026 clear glass, L 880 mm **69.09 €**

3021124 clear glass, L 1140 mm **76.35 €**

3021114 satinised glass, L 580 mm **71.86 €**

3021126 satinised glass, L 880 mm **101.78 €**

3021125 satinised glass, L 1140 mm **116.90 €**

Prova colour change LED

Top-mounted lamp for rear walls. Aluminium LED profile, can be shortened every 25 mm, no visible LED points.

Individual lamp

- 31.2 watts, 12 V
- continuous control of the light colour from **2700 K** warm white to **6500 K** cold white
- max. 80 lumen/watt at **6500 K** cold white
- light length 2600 mm
- 2000 mm two-sided supply line
- LED strip 2600 mm, two-sided feed-in
- for 16 mm wall thickness
- LIC LED system compatible

This product contains a light source of energy efficiency class G.

You'll find further colour change function converters and remote controls in catalogue 1 page 265–269/25 EN.

Linerio MosaiQ

Countless possibilities for niches – Linerio MosaiQ is just as versatile and flexible as its users.

By ordering the LED strips additionally, the multi-functional profile in anodised aluminium can also be used as a light strip. In this way, it emits warm-toned, indirect lighting onto its components.

The MosaiQ components are hooked in or attached. They are available in three heights and three widths, accented by horizontal decorative elements.

Linerio MosaiQ profile strips set-1

Rail system. Aluminium.

Set consisting of:

- 1 aluminium profile strip (41.5 x 33 mm, H x D)
- 2 end pieces, 1 connector plus screws and dowels

8047417	stainless steel coloured	67.88 €

Rail and shelf systems

transFORM

Wall slats and vertical structures are an absolute trend at the moment. Here is the innovative solution: take a basic profile and a cover profile and not only slatted walls but also niche systems, complete wall panelling, solitary shelf units and wall shelves can be configured with a high degree of flexibility and versatility.

transFORM rail system

transFORM offers additional functionality through the option of illuminating both sides of the profiles with 8 mm LED strips and, when installed horizontally as a niche system, attaching various sliding functional elements. These include the following modules: a tray with a removable box (for storing small utensils) and also without a box, a tray for a tablet or smartphone, a spice rack, a bottle rack, a bottle and spice rack, a kitchen roll holder and a glass holder, a universal tubular pot, hook strips and a power box with two sockets.

The profile systems are characterised by variety, versatility and numerous possible applications. The transFORM basic profile is available in the lengths 1800 and 2400 mm, as is the matching trapezoidal cover profile with black textured, powder-coated finish.

transFORM shelf holder

The transFORM shelf system is a particularly extravagant eye-catcher. The groove on both sides of the base profile allows the integration of 8 mm LED strips, which creates a stylish ambience. The basic profile is fitted with shelf holders for 200 mm deep wooden

shelves or sheet metal shelves (set incl. holder). The supports can also be used when configuring slatted walls to hold wall shelves (see above).

transFORM solitary shelf unit

The solitary shelf units are particularly eye-catching. They are 180 mm deep, available in seven different heights and can also be illuminated. The alternating open and closed shelf compartments give the shelves a contemporary and distinctive look with a high recognition value. The three smallest shelves can also be integrated into the niche rail.

transFORM wall shelf

The wall shelf is available in the lengths 600, 900, 1200 and 1500 mm. The functional elements of the rail system can also be attached to these wall shelves. The wall shelf can also be illuminated on both sides with 8 mm LED stripes.

transFORM

The system transFORM with its matt black powder-coated surface is characterised by its extreme flexibility and versatility. A basic profile and a trapezoidal cover profile can be used to create slatted walls, niche systems, solitary shelves and wall shelves. Horizontally and vertically. For the kitchen and living room. The system offers additional functionality through the option of illuminating the profiles with commercially available 8 mm LED strips and, when mounted horizontally, being able to hook in various sliding functional elements.

transFORM profile

Black matt, powder-coated.

Set consisting of:

- basic profile and cover profile (end caps and screws included)

8041214 L 900 mm	137.48 €
