

KITCHEN ACCESSORIES

3 INTERIEUR

In the midst of the action!

April 2025

Dear Naber customers and interested parties,

The world is changing – in many ways. Also when it comes to kitchen accessories, a variety of developments are intertwined: technological innovations, optimisation of materials, changing consumer expectations, changing trends in colours and shapes, and many other things.

All the more reason to keep a clear overview now, in the midst of the action. Let's stay focused! We confidently build on our established strengths and the dynamic optimisation of our product range. And we also continue to offer our customers and end users fresh ideas, creative leaps and diverse offers for the perfect kitchen. And, needless to say, with a comprehensive range of top-performing products and excellent service.

So the new edition of the **"Thick Green Book"** (valid from **1 April 2025**) is coming out at just the right moment. It is still in great demand everywhere on the market as a companion for inspiration and quick orientation. And it also includes a special highlight: our new **WESCO® product group** with the subgroups "multi-containers", "outdoor", "storage" and "laundry & bathroom"!

We wish you every success with the Thick Green Book – a compelling guide to the varied kitchens of today, in the midst of the action.

Best regards,

Naber GmbH

Grasp opportunities

We lead the way and grasp opportunities! By acquiring the WESCO® trademark rights, we have taken another significant step on our path to success. So you can continue to count on the unmistakable WESCO® products in future, in our new product group with the same name.

And not only that! Our development department is also constantly grasping opportunities. Currently, for example, with LUMICA®, we are increasingly integrating smart, compatible lighting technologies that make everyday kitchen life more convenient and energy efficient. Or with COMPAIR®, by optimising the air flow for the increasingly popular hob extractors.

And Naber is also spearheading the market with new products in the other product categories. In this way, we can constantly provide creative impulses for the accessories sector.

Our chances are also your chances! Because our newcomers will also convince you and your customers. All the information can be found in the new catalogues – and, of course, in our web shop. As usual: let yourself be inspired!

There's always something new from Naber!

What makes kitchens perfect

It's the kitchen accessories! Technologically advanced, with design and functionality that meet all the requirements, always to hand with imaginative application solutions, and above all: convincing day in, day out. With our accessories, your kitchen becomes more attractive – and your daily kitchen routine more varied, safer, easier and more efficient.

Needless to say, Naber is always in demand when it comes to kitchen accessories: because we know all the ins and outs – and have done for decades!

We therefore consider it a great affirmation to have been awarded the title German Brand Icon by the expert jury of the Plus X Award 2024.

Everything from a single source

High quality, excellent design, creative ideas and great flexibility – that's our guiding principle. Kitchen accessories need to fit in with every style and every interior. And what's more: kitchen accessories need to provide perfect solutions for different age groups.

So it makes sense to offer a full range of products right from the start. That is in line with our principles. And also includes perfect service, of course!

Leading the sector

It's common knowledge in the sector: at Naber, there's always something new! Naber's highly informative exhibition stands are a magnet for visitors because they showcase all the latest product highlights in a way that is both appealing and expressive. And because they also provide a complete overview of all aspects of perfect kitchen design and the latest trends in kitchen accessories.

For professionals, decision makers and creative designers who appreciate that Naber is both progressive and embraces proven traditional values. In the interest of the market and the satisfaction of the end customers!

Webshop & Co.

Dealer portal:
check-in for
professionals

"You just have to do it!" say enthusiastic customers. Fast access to order history, conditions, delivery data, networking with data systems!

Service:
everything that is useful

For example, the dealer search, FAQs, POS systems and video library, the niche rear wall configurator. And everything right up to the minute!

Magazine:
exciting information

For inspiring ideas and new selling points. In short: to keep you up to date!

Company:
in-house highlights

For anyone interested: career and training, awards, press releases, the Naber path to success. Rated: well worth reading!

General Terms of Sale B2B

Version 01/2025

I. Scope of application

1. The following Terms of Sale shall apply for all contracts concluded between the purchaser and us concerning the delivery of goods if the purchaser is a company (§ 14 German Civil Code [Bürgerlichesgesetzbuch, BGB]). These Terms also apply for all future contracts concerning the delivery of goods even if they are not expressly mentioned again. Conflicting terms of the purchaser that we do not expressly recognize are not binding for us even if we do not expressly contradict such terms. The following Terms of Sale shall also then apply if we carry out the purchaser's order without reservation and with knowledge of the contradictory or differing terms of the purchaser.
2. All agreements that were entered into between the purchaser and us for performing the purchase contracts are documented in writing in the contracts. The parties shall confirm all oral agreements in writing. If contracts are set out in both the German and also a foreign language, in the case of a dispute, the German language version is determinative.

II. Offer and contract conclusion

1. We can accept a purchaser's order that is to be qualified as an offer to conclude a purchase contract within two weeks—for an order in the Naber dealer portal, 5 working days—by transmitting an order confirmation or by sending ordered products within the same time limit. The purchaser is bound to the purchaser's order for this time period.
2. Our offers are subject to change and nonbinding unless we have expressly identified them as binding.
3. All oral and written information concerning possible applications and the suitability of all goods are carried out to the best of our knowledge. However, this information only represents our historical experience, which cannot be deemed to be consistently warranted. This information does not form the basis for any claims against us. In particular, the purchaser is not relieved of the duty of ensuring by means of the purchaser's own inspection that the goods are suitable for the purchaser's intended use.
4. We reserve all rights of ownership, copyright and other industrial property rights in images, calculations, drawings, sample books, catalogs and other documents. The purchaser may only transfer these to a third-party with our prior written consent irrespective of whether we have designated these items to be confidential.

III. Payment terms

1. All prices apply ex works without packaging and must be paid in Euros if not otherwise set out in our order confirmation. The statutory value added tax is not included in our prices. This will be separately disclosed in the invoice at the statutory amount on the date of invoicing.
2. The purchase price is due 10 days after the invoice is sent (invoice date) less a 2% discount, otherwise net (without discount) 30 days after the invoice date provided that no different payment target follows from the order confirmation. A payment is not deemed to have taken place until the funds are available for our use. In the event of payments by check, the payment is not deemed to have taken place until the check is cashed. For new customers we reserve the right to deliver against cash on delivery less a 2% discount. For orders with a value of goods up to € 50.00 net, we reserve a minimum quantity surcharge of € 6.50. In the case of a contract included with an agreement of „advance payment“, the purchase price is due 10 days after the invoice date.
3. If the purchaser is in default in making payment, the statutory provisions shall apply (§ 288 BGB).
4. The purchaser is only entitled to set-off, even if a notice of defects or counterclaims are asserted, if the counterclaims have been conclusively adjudicated or are undisputed. The purchaser is only authorized to exercise a right of retention if the counterclaim is based on the same contractual relationship.
5. We reserve the right to request payment security and/or advance payments.
6. If the purchaser is in default of payment or if there is reasonable doubt concerning purchaser's ability to pay, we are entitled to declare all claims against purchaser as due for payment and/or to retain as yet outstanding deliveries in their entirety or in part or to withdraw from the existing contracts entirely.

IV. Delivery and performance times, liability for delivery delays

1. Delivery dates or time limits that have not been expressly agreed to be binding are solely non-binding declarations. The delivery time stated by us shall not commence prior to complete clarification of the order and clarification of all technical questions. The purchaser must likewise properly and timely fulfill all obligations incumbent upon purchaser.
2. Force majeure cases, e.g. labor disputes, civil unrest as well as other unforeseeable damaging events for which we are not responsible, extend the delivery time period for the duration of the disruption insofar as the disruption demonstrably influences our ability to render the service. This also applies if these circumstances occur for our suppliers. If the disruption lasts for longer than four weeks subsequent to the expiration of the originally agreed scheduled date, each contracting party can withdraw from the contract. The withdrawal extends to the part of the contract not yet fulfilled, unless the partial performance to be provided is not usable by purchaser. No compensatory damage claims accrue to the purchaser from this situation.
3. If the underlying purchase contract involves a transaction for delivery by a fixed date within the meaning of the BGB or the Commercial Code [Handelsgesetzbuch, HGB], we are liable according to the statutory provisions. The same applies if the purchaser is entitled, as a consequence of a delayed delivery for which we are responsible, to assert the discontinuation of his interest in the further fulfillment of the contract. In this case our liability is limited to the foreseeable, typically occurring damages if the delayed delivery is not based on an intentional violation of the contract for which we are responsible. We shall likewise be liable to the purchaser for delayed delivery according to the statutory provisions if this delay is based on an intentional or grossly negligent violation of the contract for which we are responsible. Our liability is limited to the foreseeable, typically occurring damages if the delayed delivery is not based on an intentional violation of the contract for which we are responsible. In any case the occurrence of a delay requires a reminder notice from purchaser.

V. Transfer of risk, delay in acceptance, shipping/packaging

1. Loading and shipping are at the purchaser's risk. The regulations concerning a sale by delivery to a place other than the place of performance according to § 447 BGB shall apply even if the shipment is undertaken with our means of transport or by our employees.
2. We shall make every effort to take into consideration the wishes and interests of the purchaser with respect to the type of shipment and route; additional expenditures thereby required—also in the case of an agreed freight paid delivery—shall be at the purchaser's expense. A transportation insurance policy shall be concluded for the shipment if the purchaser expressly requests this with the order. The costs shall be billed to the purchaser and separately set out in the invoice.
3. We will not take back transportation packaging and all other packaging according to the packaging regulation; excepted from this are pallets. Purchaser must ensure the disposal of the packaging at its own expense.
4. If the shipment is delayed at the purchaser's request or due to the purchaser's fault, we will then store the goods at the expense and risk of purchaser. In this case a notice of readiness to dispatch is equivalent to shipment.
5. If the purchaser delays acceptance, we are then entitled to request compensation for the resulting damages and any additional expenditures. The same applies if the purchaser culpably violates duties of cooperation. With the occurrence of a delay in acceptance or the delayed payment of a debt on the part of the purchaser, the risk of accidental deterioration and loss of the goods passes to the purchaser.
6. We shall not assume any costs for returns that are not agreed with us in advance in writing or returns that are not expressly recognized as legitimate after evaluation of the reason for the return (e.g. incorrect delivery, defects, etc.). Should we incur costs for returns that are not agreed or not legitimate, we shall bill the purchaser/sender in the amount of the actually incurred third-party costs as well as our own costs.

VI. Warranty/liability

1. We do not assume any warranty for defects that arise due to natural wear and tear, faulty or negligent treatment, improper storage, inappropriate or improper use or nonobservance of the processing and use instructions. If the delivery takes place according to drawings, specifications, samples, etc. of purchaser, the purchaser assumes the risk of their suitability for the intended use.
2. The purchaser's claims for defects shall only exist if purchaser has properly complied with purchaser's duties of inspection and providing notice of defects. Therefore, purchaser is obligated to promptly provide notice of apparent defects in the goods upon receipt. In the case of hidden defects that purchaser cannot ascertain upon receipt of the goods, purchaser must promptly give notice of defects subsequent to their discovery.
3. In the case of a complaint, we are entitled at our option to request that purchaser send us the rejected goods for inspection or for subsequent performance or make the rejected goods available to us. We shall only bear the costs of this shipment in the case of a legitimate complaint.
4. In the case of a defect we are entitled to carry out the subsequent performance of our choice by means of a replacement delivery or by repairing the defective goods within a reasonable grace period. There is no duty of subsequent performance insofar as we are authorized to refuse subsequent performance on the basis of statutory provisions. In our selection of the type of subsequent performance, we must take into consideration the type of defect and the legitimate interests of the purchaser. We shall bear the expenses necessary for the purpose of subsequent performance. We shall not bear the additional cost that arises thereby that the goods have been transported to a different location than the place of performance or the registered commercial offices of the ordering party unless this transport is in conformity with the intended use of the goods.
5. If the subsequent performance fails, purchaser can elect a decrease in the purchase price

(reduction) or declare purchaser's withdrawal from the contract. If the purchaser withdraws from the contract, purchaser is not entitled to an additional claim for compensation for damages unless we are responsible for the defect due to intentional acts or gross negligence. If only part of the delivery of goods is defective, purchaser can only then withdraw from the entire contract if purchaser does not have any interest in the remaining part of the delivery.

6. Purchaser's claim for recourse by virtue of warranty claims and rights arising from consumer goods purchase contracts (§§ 474, 478 BGB), may only be asserted against us by purchaser to the extent that purchaser is obligated to satisfy warranty claims and rights towards purchaser's customers on the basis of statutory provisions. The claim for recourse against us is excluded to the extent that purchaser has a warranty or liability obligation towards purchaser's customers in the absence of a legal obligation, in particular, as a gesture of goodwill or on the basis of special assurances or guarantees of the purchaser.
7. The claims and rights owing to a defect in the goods may only be asserted by purchaser within the warranty period of twelve months after delivery of the goods. This does not apply for claims and rights for which longer notice periods are mandatorily prescribed according to § 438 paragraph 1 No. 2 BGB for construction, and objects for construction (construction materials) or according to § 445b BGB for the recourse claims of a company.
8. We are liable according to statutory provisions for damages to life, the body and health that are based on a negligent or intentional violation of duties by us or our legal representatives or our vicarious agents as well as for damages that are encompassed by liability under the Product Liability Act. We are liable according to statutory provisions for damages that are not comprehended by sentence 1 and that are based on intentional or grossly negligent contract violations as well as deceit by us, our legal representative or our vicarious agents. However, in this case the liability for compensatory damages is limited to foreseeable, typically occurring damages insofar as we, our legal representative or our vicarious agents did not act intentionally. To the extent that we have provided a guarantee of quality and/or durability with reference to the goods or parts thereof, we shall also be liable within the framework of this guarantee. However, for damages that are based on a lack of quality or durability as guaranteed, but that do not occur directly with regard to the goods, we are only then liable if the risk of such damages is obviously comprehended by the guarantee of quality and durability.
9. We are also liable for damages that are caused by simple negligence insofar as the negligence is related to the violation of those contractual obligations the observance of which are of particular importance for achieving the purpose of the contract (material obligations). In this case, however, our liability is restricted to typically foreseeable damages.
10. Any further liability is excluded without considering the legal nature of the claim asserted; this also applies in particular for tort claims, for claims for reimbursement of futile expenditures in place of performance, or for compensation claims for lost profits. Insofar as our liability is excluded or limited, this shall also apply for the personal liability of our personnel, employees, staff, representatives and vicarious agents.
11. Purchaser's compensatory damage claims on account of a defect are time-barred one year after delivery of the goods. This shall not apply in the case of injuries to life, the body, or health for which we, our legal representatives or our vicarious agents are at fault or if we or our legal representatives have acted in an intentional or grossly negligent manner, or if our ordinary vicarious agents have acted intentionally.
12. Our sales representatives and commercial agents are not authorized to make legally binding statements with regard to defects and warranty claims for us.

VII. Retention of Title

- 1.a) The delivered goods (goods subject to retention of title) remain our property (extended retention of title) until all claims are satisfied against the purchaser, including all outstanding balance claims from a current account to which we are entitled arising from the order and the entire business relationship.
- 1.b) To the extent that an extended retention of title is not applicable in the country in which the purchaser has its registered office, the delivered goods remain our property (ordinary retention of title) until all claims to which we are entitled against the purchaser from the respective order have been satisfied, including taxes, charges or transportation costs.
2. In the case of purchaser's conduct contrary to the contract, e.g. delayed payment, we are entitled to take back the goods subject to retention of title after setting a reasonable time limit in advance; if it is unnecessary to set a time limit according to the provisions of the law, we are also entitled to demand the return of the goods subject to a retention of title without a grace period. If we take back the goods subject to a retention of title, this represents a withdrawal from the contract. If we levy execution against the goods subject to a retention of title, this is a withdrawal from the contract. We are entitled to realize on the sale of the goods subject to a retention of title subsequent to taking them back. After deducting a reasonable amount for the cost of realizing the sale, the proceeds from the sale shall be settled against the amounts owed to us by purchaser.
3. Purchaser shall treat the goods subject to a retention of title with care and sufficiently insure these goods at their original value against losses due to fire, water damage and theft. Maintenance and inspection work that become necessary must be timely carried out by purchaser

at purchaser's expense.

4. The purchaser is authorized to sell and/or use the goods subject to a retention of title in the ordinary course of business as long as purchaser is not in default in payment. Pledging and transfers by way of security are impermissible. Claims arising from resale of the processed or unprocessed goods subject to a retention of title, or arising for another legal reason (insurance, unlawful acts) with respect to the goods subject to a retention of title (including all outstanding balance claims from a current account) are already transferred by purchaser to us as security in the amount of the final invoice amount (including VAT) for our claims against the purchaser; we hereby accept the assignment. We revocably authorize purchaser to collect the claims assigned to us in the name of purchaser and for purchaser's account. This collection authorization can be revoked at any time if purchaser does not properly comply with purchaser's payment obligations.
5. For the purpose of assigning this claim, purchaser is also not authorized to collect claims by way of factoring unless an obligation of the factoring party is at the same time created to directly effectuate payment of consideration to us in the amount of the claims for as long as our claims against the purchaser exist.
6. Processing or reshaping the goods subject to a retention of title by purchaser shall in any case be undertaken for us. If the goods subject to a retention of title are processed with other items not owned by us, we shall acquire joint ownership in the new item proportional to the value of the goods subject to a retention of title (final invoice amount including value added tax) along with the other processed items on the date of processing. The same shall apply for the new item emerging from the processing as for the goods subject to a retention of title. In the case of the inseparable combination of the goods subject to a retention of title with other items not owned by us, we shall acquire joint ownership in the new item proportional to the value of the goods subject to a retention of title (final invoice amount including value added tax) along with the other combined items on the date on which they are combined. If the purchaser's item is to be viewed as the primary item as a consequence of this combining, the purchaser and we agree that purchaser transfers proportional joint ownership to us in the item; we hereby accept this transfer. Purchaser shall preserve the sole or joint ownership in the item arising in this manner for us.
7. In the event of attachment by third parties against the goods subject to a retention of title, in particular, levies of execution, purchaser shall call attention to our ownership and immediately inform us so that we may enforce our rights of ownership. To the extent that the third-party is not in the position to reimburse us for the court and out-of-court expenses arising in this connection, purchaser is liable therefor.
8. We are obligated to release the security to which we are entitled to the extent that the realizable value of our security exceeds the claims to be secured by more than 10%; in so doing, the selection of the security to be released is at our discretion.

VIII. Images and dimensions

Images, technical information and dimensions in brochures and price lists shall not be deemed to be a binding agreement and not a promised characteristic. These only represent approximate values. Binding information can be provided in an individual case upon request. Special suitability may not be taken from the images and dimensions. We expressly reserve the right to make modifications.

IX. Place of performance, venue, applicable law

1. The place of performance for deliveries and payments (including actions regarding checks and bills of exchange), is, if not otherwise expressly specified, our registered office in Nordhorn.
2. The exclusive local jurisdiction and international court of competent jurisdiction is in the location of our registered office in Nordhorn (Germany). However, we are also authorized to sue the purchaser in purchaser's place of general jurisdiction (domicile or registered office).
3. The business relations between the contracting parties are regulated exclusively according to the law applicable in the Federal Republic of Germany excluding international private law (Introductory Statute to the Civil Code [Einführungsgesetz zum Bürgerlichen Gesetzbuch], EGBGB). The application of the UN Convention on Contracts for the International Sale of Goods is excluded.
4. Should a provision of these general Terms of Sale (or within the framework of other agreements) be or become invalid or unenforceable entirely or in part, this shall not affect the validity of all other provisions or agreements. The contracting parties hereby commit to replace the invalid or unenforceable provision or agreement with a valid or enforceable provision or agreement most closely in conformity with the commercial provisions.
5. The headings for the individual regulations of these delivery and payment terms only serve to provide a better orientation and do not have any independent substantive content and no legal significance.
6. The purchaser's data related to the business transactions with purchaser shall be processed according to the Federal Data Protection Act.

X. Precedence of the German version

If these Terms of Sale exist in different languages, the German version is solely decisive for clarifying questions of interpretation.

Expression

Kitchen design calls for flexibility! After all, from a quick breakfast to a classy meal, from a brisk snack to an extended get-together, everything has to be possible here. Part of every kitchen scenario: chairs, stools and tables.

Here, TABLON® offers a wide range of furnishing variants and combination options. This applies to chairs or stools that look good, fit into the particular surroundings and, at the same time, are extremely comfortable and stable. And the same goes for tables that are perfectly designed and masterfully constructed, attractively shaped and flexibly integrable into all furnishing styles – simply indispensable!

Frames and colours

Our range of chairs is characterised by different frames and different seat surfaces. Thus, the right chair or stool in the heights 67, 80 or height adjustable finds its own place in the kitchen or dining area.

Here you will find an overview of our seat surfaces and frame colours:

Fibreglass polypropylene (Outdoor)

Fabric S (100 % PES)

Back artificial leather (100 % PES)

Artificial leather grained KT (100 % PU)

Artificial leather grained KT (100 % PES)

Artificial leather soft KM (100 % PES)

Please note the possible combinations for the respective models on the following pages.

Eco-leather (combination of leather, polyester and recycled leather), surface in PU

Eco-leather (combination of leather, polyester and recycled leather), surface in polyester

100 % gerecycled polyester from PET bottles

Velvet

Care/cleaning

If there are stains on the covers, clean them with just a little water and then dry completely with a new cloth. Too much moisture soaks into the surface and can damage it. Please note the cleaning and care instructions included in the scope of delivery.

Please note the possible combinations for the respective models on the following pages.

Stools Indoor/Outdoor

Trill – perfect
in every context

Just get together

Stools always look inviting. They are casual and spread good mood. Stools are the perfect place to relax in a bistro atmosphere, take a break from everyday life and enjoy conversation. If you fancy some fresh air, Trill Indoor/Outdoor stools are quickly to hand. And they're just as good inside. Anywhere where people get together.

Intelligent design

Trill stools don't need to show off. If they're not needed for the moment, they are stacked to the side. And their design is definitely nothing to hide away: it's as beautiful as it is calm and functional. The colours have been carefully chosen so that Trill stools are at home in a wide style spectrum from kitchen living rooms to outdoor areas.

Light and versatile

Trill stools are made of UV-resistant fibreglass polypropylene. This material offers a wealth of good features. Above all, it is light, which makes Trill furniture versatile and adds extra flexibility and relaxation to the whole scene. One or more stools can easily be repositioned. The non-slip foot caps prevent marks, and the high durability easily withstands transport or small knocks – and of course stacking and stowing.

TABLON®

Chairs Indoor/Outdoor

Trill – suitable everywhere,
extremely comfortable

Prepared for surprises

Suddenly you need another seat. Or chairs have to be stored in a small space. This is the hour of Trill Indoor/Outdoor chairs. They are stackable. They are always there when needed, can simply be switched from indoors to outdoors, can quickly be brought out or put away. And they look good everywhere!

Harmonious appearance

Trill Indoor/Outdoor chairs pick up on current furnishing solutions because they are amazingly adaptable. Because their appearance is unpretentious, functional and simple. At first glance it is clear: everything is as it should be. And there is nothing to add.

Uncomplicated material

The material perfectly complements the appearance. The UV-resistant fibreglass polypropylene of Trill is above all one thing: uncomplicated. It forgives (almost) everything. It's light, yet sturdy and resistant. Stackable chairs have to be able to withstand a great deal. Trill Indoor/Outdoor chairs don't need protection (exception: lasting frost). And not least: Trill chairs are completely recyclable.

3033187 black matt, price per pc. **121.01 €**

TopSwing

Child-proof ease of use: the TopSwing folding table fitting provides a space-saving, flexible tabletop that can easily be lowered with just one hand. The top slides down smoothly from its vertical position on the wall, with the release mechanism positioned high enough that small children can't reach it. When opened, the fitting also acts as a table leg. This guarantees legroom and optimum stability.

Delivery time from stock.

TABLON® Frames

Mobile and adjustable

There's no "rule book"

If it's individual solutions you're looking for, you'll find them in these frames. The dining table for a large group of friends, with a bench or alternatively with stools. Alongside the standard sizes, some series also offer custom-made productions to customer requirements.

The material combination

High-quality aluminium profiles in brushed stainless steel colour or matt black. They can be combined with classic real wood, glass or easy-to-clean artificial leather. The professional processing guarantees load-bearing capacity and optimum quality.

The production

All furniture items are produced in Germany, as per order and according to customer wishes. All frames are delivered disassembled.

Through recycling to design masterpiece

Did you know that aluminium as a material has a virtually unlimited life cycle? Something like 75 % of the aluminium produced since 1888 is still in productive use today.*

The recycling of aluminium requires only 5 % of the energy required to produce primary aluminium. The aluminium used for the production of these frames is produced from 60 % recycled materials.

*Source: GDA – Gesamtverband der Aluminiumindustrie e.V.

Bench frame BG120

The kitchen is the place of communication. Tables and benches are the central meeting point for the family, children, couples, neighbours, friends. This meeting point has to meet many requirements: inviting, comfortable, generous, practical, stable, resilient, individual. This bench frame is quipped with an additional shadow gap in the form of a 19 x 21 mm aluminium profile on the cross bars.

Be inspired by 100 % style, quality and individuality.

The production: All items are manufactured to order in Germany based on customer requirements.

Assembly required. **Delivery time 4–6 weeks.**
Current delivery time information on naber.com

Dimensions for custom-made frames (3504999):
